CAYLEY SPORTS

Citizens of Cayley Are Preparing A Big Day of Sports on May 24th. Dance at Night

Cayley is going to put over a celebration on Victoria Day that will give pleasure and enjoyment to those who spend the holiday there. At ten o'clock the children's sports will commence which will consist of athletic sports and this will be followed by a baseball match at 11 o'clock. There will be a refreshment booth on the grounds and meals will be served in the I.O.O.F. hall.

The afternoon programme will consist of athletic sports, baseball match, horse races and cowboy races. In the athletic contests there will be keen rivalry between a large list of contestants. Liberal prizes will be awarded the winners. See advertisement on page 2.

FOOTBALL

Organization of Club in Vulcan on Friday Night

A meeting was held at the office of the municipal district of Royal on Friday evening, May 11, for the purpose of organizing a football club in Vulcan if those present were in favor of such a course.

There was a fairly good attendance when the meeting was called to order. A. J. E. Gibson acted as chairman and B. E. Orton as secretary. It was unanimously decided that a club should be formed.

The election of officers was then proceeded with and the management for the first season will be in the hands of the following gentlemen: President, Dr. Carson; vice-president, G. C. Collier; secretary-treasurer, I. S. MacDonald; committee, A. Sinclair and B. E. Orton.

Ways and means were discussed at some length and it was decided to have practice games on Tuesday and Thursday evenings of next week, and that another meeting be held immediately after the second practice. At the meeting a captain will be elected and other necessary business transacted.

The subscription was fixed at a dollar and Messrs. Collier and Sinclair were appointed to solicit membership and round up players for the practice games. The feeling of the meeting was that there is enough material in the district to get together a really good team.

Suspicion is just a private conviction that you would act that way if you were in his place.

MOTHERS' DAY

Large Congregation at Union Church on Sunday

A large congregation of men and women, boys and girls, with hearts full of love and gratitude, assembled together in the Union church Sunday morning to do honor to the memory of their mothers. Some of them are still with their children, while others have been removed to the home above, with its higher joys and nobler services.

The hymns, solos, and anthems by the united choir, of the church; the recitations by members of the Sunday school and addresses by the pastor and Sam McDonald were such as to awaken in every responsive heart feelings in harmony with the spirit of the service.

Rev. J. N. Brunton in the course of his address on "The Mother and the Cross" said that many of the greatest battles have been fought and are being fought today by mothers who have given their all in the struggle for religious freedom and equality. It is to show our brave mothers whose lives have been one long chain of sacrifice for us, that we realize what they have done for us and are doing for us, and to remember too the brave sacrificing mothers who are no longer with us that we are assembled together this morning.

We are surprised to learn from Luke 11:35 that the reward which Jesus came to bring should cut deepest into the mothers heart and yet we find the words to be true. Every bullet that strikes a soldier on the battlefield, every sword lifted against her son is thrust through the mothers heart. Every true mother carries in her heart a burden of anxiety for her children. We have heard mothers say that their children never caused them a moment's anxiety. It is the nature of good mothers to be anxious about their children, the better the mother, the heavier the burden she carries. No mother had a more dutiful boy than Mary had in Jesus, yet no son caused his mother so much anxiety. A true mother is most sensitive to what is said about her son, but when that son comes before the public and becomes the subject of criticism this sensitive nature turns into pain. I have known of public men keeping the newspapers out of their mother's sight lest they should be pained by the criticism of their enemies.

Mary's heart was grieved when she beheld the growing unpopularity of her son and the anger and hatred which he excited, the tide of feeling that rose up against him as he disappeared the worldly expectations of the multitude that cried "Hosanna" one day and the next day they cried, "Crucify Him, Crucify Him." And as he was hurried to the cross amid the shouts of a maddened crowd, the one who felt it most was his mother.

"Now there stood by the cross of Jesus His mother" (John 19:25). I do not know how you feel about it, but I sometimes think that there is no picture in sacred or profane history so heartsearching as the picture of Mary at the cross of her Divine Son.

Think if you can what must have been her thoughts at that hour.

But a few short years ago, He who was dying on the cross was a babe in her arms and at her breast she remembered how all too quickly the years had passed by until the babe became a growing boy and the boy became a man and the neighbors began to recognize him as the carpenter of Nazareth. Then there came that strange call, the meaning of which she did not clearly understand to preach the gospel of His Kingdom to heal the sick, etc.

She had seen how the crowds had gathered about him and how the common people had heard him gladly. But now all is changed, her son is dying alone on the cross. Well she at least must be waiting. If wicked men had sent her son to the cross, then the cross was her place. "Now there stood by the cross of Jesus His mother," Rudyard Kipling can tell the story of the mother and the cross better than I.

"If I were hanged on the highest tree I know whose love would follow me still, mother, oh mother of mine! If I were drowned in the deepest sea I know whose love would come down to me, mother of mine, oh mother of mine! If I were damned of God in soul I know whose love can make me whole, mother of mine, oh mother of mine!"

EXCURSION TO BANFF

Arrangements have been made for a special train Calgary to Banff and return on Victoria Day, May 24, leaving Calgary at 8 a.m., arriving at Banff at 11:10 a.m., returning leaving Banff 8 p.m., arriving Calgary 10:35 p.m. A special excursion fare of \$3.30 for adults and \$1.65 for children, plus tax in each case, will be in effect from Calgary. Those who desire to go from here will require to be in Calgary on the 23rd in order to make train connections.

TOWN COUNCIL

Interesting Monthly Meeting of Municipal Body

The regular monthly meeting of the Vulcan town council was held at the Royal municipal district office on Monday evening, May 7, Mayor Butchart presiding and all the councillors being present with the exception of L. H. Stack.

The minutes of the last regular meeting and the special meeting held the previous Monday were read and confirmed, and the bills and accounts presented were dealt with.

The second and third readings were given to the amending bylaw relative to the sale of cream by storekeepers, and the same was passed.

A bylaw regarding the riding and driving on the sidewalks and boulevards was introduced by Councillor Leverington and passed the first reading.

Mr. Frank Kiever interviewed the council and made application for a grant towards the expenses in connection with the wheat hauling record established by R. Moorehouse with his big team a few months ago. The application was refused, the council being of the opinion that there was nothing in the charter to justify such a grant.

The application of the Canada Restaurant for a building permit was refused on the recommendation of the fire and building committee.

The question of the construction of cesspools was raised but the matter was left in the hands of the health committee to report later.

The clean-up campaign having closed on Saturday last, it was arranged to have an inspection round town, those found dilatory in this matter to be instructed to get their yards, etc., cleaned up immediately.

It was decided that a head tax of four dollars be collected for school purposes.

The town trees, etc., being expected about the 12th May, the matter of replants and preparation for same was also under discussion. In connection with the eleven hundred trees to be planted in the fair grounds nursery Councillor Spooner was authorized to see that a suitable fence was erected to protect same.

THE OPENER

Nanton Wins Against Vulcan in Baseball Game

The opening game in the baseball league series at Vulcan on Wednesday did not have some of the features which have attended the opener on previous occasions. However, there was a fair attendance of fans, and a fair game served to introduce the players to the spectators. Ours was not the men that started or finished last season, there being several new men on the line-up.

It is early in the season, and considering all circumstances it was a good game. Though the score of 6 to 1 against Vulcan is not so good as a win, there is nothing to complain of. In fact there were several demonstrations of real talent that with some development gives promise of some good games.

Siler and Recor were in the points for Vulcan, and they were great for a start. The weakness of the locals was particularly in batting. Macleod and Loece were the battery for Nanton, and put up a splendid game. As a team the visitors were some better than the locals, the score indicating this, though the earned runs were almost nil.

No credit is denied the winners and no blame is put upon the losers. It is good that the league has got a start, and a good start, and the way to secure good ball and better ball is to lend encouragement to the players and give support to the management. Now that we are off, let us keep going, the determination being to get better in every way every day.

For the past two weeks we have been experiencing ideal growing weather. The good rain of about two weeks ago has been followed by occasional showers, some of which were heavy, and this accompanied with mild temperature has promoted the growth of crops and has practically assured a good strong stand and strong stooling. No winds of any consequence has occurred. The nights have been cool with a frost on two occasions but this has done no apparent harm. The general conditions as presented today have never been better and with a continuance of these conditions we will witness an exceptionally large crop this fall. More rains are wanted later to insure a good filling and the predictions are that we will have them. At the present time all are quite satisfied with the excellent start. Business in consequence of the showing is good in all lines, expressing an optimism which is founded on the faith in district coming back strong this year. The trails are now all in fair condition.

LOCAL ITEMS

Dr. H. P. Barker has bought a fine new car. It's a McLaughlin.

No man is ashamed of his acts as often as he should be.

Messrs. H. W. and Ross Marcellus motored to Calgary on Wednesday.

Mrs. LeBow, of Barons, rendered a solo at the Union church service on Sunday last.

r. George Pettiman, on Wednesday, entered upon his duties as manager of the Pioneer elevator at Vulcan, succeeding r. George Ecker.

Mr. R. L. Armer, of the Bank of Commerce staff, has returned to business after a holiday of two weeks spent at his home in Macleod.

John Hanna of Calgary passed through High River on his tour of the Blue Trail. He will go to Great Falls and other Montana points before he returns.

White beans have been grown with much success on the irrigated lands at Vauxhall, Alberta, and a large acreage is being put in this crop this year in that district.

Miss Adelaide Cook has accepted the position as teacher at Richmond school, and commenced on May 1st. Miss Cook is a graduate of the Vulcan schools, and many friends here wish her well.

Mr. and Mrs. Harry Deltz, Mrs. Wilson and Catherine, motored to High River to spend the week-end. They report a pleasant trip. Just in time to enjoy a garden party. They had a bear of a time.—Gleichen Call.

There will be an exhibit from Alberta, at the empire exhibition in London in 1924, it is announced by Hon. George Hoadley. No exhibiting will be done this year, but preparations will be made for the British exposition.

Manager Carlyle, of the Prince of Wales' ranch, at High River, left for home Saturday, taking with him three Clydesdale fillies to establish a Clydesdale stud, and also the race horse, Will Somers, which has won many races for the king.

The meeting recently held at Nanton, at which it was arranged to hold a golf tournament at High River on July 1st and 2nd, was attended by Messrs. Maher and Gibson as Vulcan representatives. Mr. Maher was selected as chairman of the meeting.

The Beaver Lumber Co. premises are being beautified by paint. Save the surface and you save all, is being generally accepted as a truth. Walter Mays and Earl Clark are painting their buildings. He that paints merits credit and helps his community.

Seed potatoes, furnished by the government for competitors in the school fair classes, have been received by Secretary Elves and are being sent out to the several schools for distribution to the pupils. Prize lifts of the school fair will be ready for distribution within a few days.

Over \$100,000 worth of the surplus supply of telephone poles which the government has had on hand for the past two or three years, has been sold by the Telephone Department. The department expects to dispose of about \$250,000 worth all told. Sufficient of this material will be reserved for construction purposes for the next three years.

Government survey parties in charge of H. G. Dimsdale, are now in the field in the Grande Prairie district, preparing the way for the construction of the extension to the Grande Prairie line authorized by the Provincial Government. The parties will also survey the route of the extension from Berwyn north-west of Peace River.

The Advocate man received a Hamilton paper containing a picture on the sporting page of his brother, who is president of a printers' baseball organization in that city. But he has nothing on us, for we are not the manager of the Vulcan Ladies' basketball club, and we know that we are in a better bunch than there is anywhere in the east.

A thorough investigation of the question of co-operative marketing in all its phases will be undertaken by a sub-committee of the Alberta cabinet, including Hon. J. E. Brownlee, Attorney General; Hon. Geo. Hoadley, Minister of Agriculture and Hon. R. G. Reid, Minister of Health. A large amount of material has already been collected on the subject. It is proposed to study the results of the various co-operative systems at present in existence.

Inquiries from across the line by intending tourists are coming in thick to publicity departments, provincial and railways, asking for information regarding roads and the possibility of being able to motor through the foothills and mountain districts. With the automobile road nearly completed from Banff to Windermere, there should be no difficulty in giving visiting tourists the time of their lives. Meanwhile this is a good time to improve our roads and attract the tourist trade.

LOCAL ITEMS

Mr. L. H. Stack was a business visitor to Calgary on Monday.

Born, in Vulcan, on May 13, 1923, to Mr. and Mrs. L. H. Stack, a son.

Mrs. George McTaggart and little hon Hugh, visited last week in Calgary.

Mr. W. H. McCutcheon, of Nanton, a former townsman, accompanied the ball team over from Nanton on Wednesday.

Misses Caisie and Murphy, former teachers here, were visitors in town over the week-end, the guests of Mrs. G. Denbigh. Both are teaching in Calgary.

Mr. and Mrs. Lawrence left here on Saturday for Calgary, and will reside for a month or two with their daughter, who resides some few miles east of the city.

Among the many local people who have recently undergone the operation for the removal of tonsils is Master John Hunter, who is now better, and better than ever.

The demonstration lecture by Miss McIntyre, under the auspices of the Vulcan Women's Institute, will be held in the basement of St. Aldhelm's church on Friday, May 25.

The annual provincial musical festival which has been a feature in Alberta for years, and which has been adopted in other provinces and states, will be held the coming week in Edmonton.

Mr. Biddle, who has had charge of the Anglican church in Vulcan during the summers of the past two years, was in town for a couple of days this week, and was greeted by many friends. He goes this year to Pincher Creek.

Vulcan barbers have made an arrangement of working hours, which are from 8 to 8 o'clock every day except Saturday, and the closing hour on that day will be 11 o'clock. Dance nights the closing time will be 9 o'clock.

Miss Cassie Davis, representative of Chautauqua, was in town over the week-end, and completed the local organization for the Chautauqua in Vulcan in June. Miss Davis is one of our own girls who has made good with Chautauqua, and the work in the old home town was an exceptional pleasure.

There will be services in St. Aldhelm's church, on Sunday, May 20th, at 11 a.m. and 7:30 p.m. Mr. Blunt, from the B.C. Anglican Theological College in Vancouver, arrived in Vulcan on Wednesday and will take up the work done during the past two years by Mr. Biddle, who this year is taking charge of Pincher Creek and district.

Sir Henry Thornton, head of the Canadian National railways, has announced a special freight rate of \$9.00 a ton on Alberta coal to Toronto, instead of the present rate of \$12.70, during the summer months. Operators in the province state that this is not sufficiently low enough to put Alberta coal on the Ontario market in competition with the American product. A rate of \$6.00 has been asked.

We are prompted this week to "lay off" on the big team and wheat delivery, and to give credit to another big thing. It is the production this week of two big eggs by a White Wyandotte hen owned by Mrs. J. E. McIntosh, who resides out Reid Hill way. One of these measures 6 1/2 x 7 1/4 inches, and the other 6 1/4 x 7 1/4 inches. We have the promise that these eggs will be presented at The Advocate office within a day or two.

The Good Deeds Women's Institute met at the home of Mrs. Ruth Koeller, on May 10th. Mrs. John Hutton gave a report of the Medicine Hat convention. Mrs. Pratt's paper on "Expenditure of Institute Funds" was very interesting. An exchange of magazines, flowers, etc., was held, and many choice plants were among the collection. Four new members were enrolled. Mrs. Wood Irvine was elected as delegate to the Calgary convention.

Basketball is booming, and the ladies are busy practicing. An effort was made to arrange a game with Nanton for this Wednesday, but the girls over there were unable to play. It was hoped that a game could be secured at Cayley for the 24th, but there is no team or equipment at that town. However, it is early yet, and as there are some games already in sight with other towns, the season promises some real sport in basketball.

The Advocate this week had a letter from Jack Thompson, who is now on his long trip east to New Hampshire. He writes from Portland, and after describing the crematorium in that city, turns from the dead ones and tells of a real live game of ball between Portland and Seattle, the former winning by a score of 4 to 3. Even the big cities and the pro ball games do not make Jack forget Vulcan and he is eagerly anticipating the reports on the Vulcan in the Alberta Southern league.

Pantages Vaudeville Next Wednesday

THE FIRST SHIPMENT

An Expert Writing for The Irish Times Speaks Highly of The Quality of Stock Included in First Shipment to the Old Country

The first consignment of Canadian store cattle landed in Scotland since the autumn of 1892 reached Meriklands Wharf last Thursday.

Owing to the importance of the event for Ireland, the Irish Times commissioned Mr. James Cameron, one of the best judges of live stock in Great Britain to inspect the Canadian cattle that were landed at Glasgow on Thursday.

Mr. Cameron wrote: "Strictly speaking, none of the cattle could be classed as store. From a fourth to a third of the total were fit for immediate slaughter, and the remainder were animals for 'short keep'. The animals had been wintered in Ontario, and they looked as if they had well-sheltered yards during the period, as they were as plain in hair as the average Scottish court-fed stock.

In ages they ranged mainly from two and a half to fully three years old, and the majority were shorthorn grades. There were some Hereford crosses and a sprinkling of very good black and blue-grey animals in the lot. "Nearly all the shorthorn and Hereford grades had been dehorned young, and that added to their value as selling animals, especially to feeders with courtyards.

"Looking at the cattle generally, a Scotchman might take them any day for well-selected Irish sent out from a good feeding district.

"Meanwhile, Scottish cattle feeders, as a body, are looking for genuine store cattle."

Those who had been working hard for the removal of the embargo on Canadian store cattle must have been highly satisfied on Friday with the results of the first sale under the new order, at Meriklands Wharf, Glasgow.

There was a crowded attendance at the sale ring shortly after mid-day, when the disposals were due to start. It was chaffingly remarked by some that butchers were remarkably numerous as patrons of a store stock sale. As I indicated yesterday, however, the cattle on offer were fat to the extent of a fourth to a third of the total, and the remainder were "short keep" animals; while a moderate proportion were fit for putting into the fat market by July or early August.

There was not a single lame or bruised animal in the collection. This is a point which Irish breeders, graziers, and dealers should think over as a preliminary to reform. The stick is used to a disgraceful extent by drovers on the Irish roads and at the railway stations, with the result that the cattle are bruised, and their value falls. It may be remarked in the passing that transit arrangements between Ireland and Great Britain still leave something to be desired.

Passing on to the sale itself, the cattle made a very good impression. They might be taken for well-selected Irish lots. In ages they ranged mostly from 2½ to fully 3 years. I did not get a chance of examining the mouths of the older lots; but they looked like animals with four broad teeth up. The best demand was for the shorthorn and Hereford grades, which had been dehorned while young, and for the naturally spotted blacks and blue greys, of which there was a fair total.

The Strathmore Auction Company started the sales with four black polled bullocks, which I estimated at about 12 cwt. They went at 41 pounds a head to a co-operative concern. A little later a couple of fine blue greys sold at 40 pounds 10s. each. Most of the lots otherwise went at 32 pounds to 37 pounds. For 100 head, sold by the Strathmore Company the average price was 33 pounds, 8s. 1d., and the average price per live cwt. was 61s. 5d.; about 30 of the younger and leaner cattle sold for 28 pounds to 31 pounds.

Mr. T. J. Irwin, Glasgow, sold a nice lot, ranging in weights mainly from 10 to 10½ cwt.—black polled three. The pairs led off at 34 pounds and 34 pounds 10s. a head. Average would be about 68s. a live cwt.

Sales kept very steady, and only eight animals fell under 30 pounds; for 80 the average price per live cwt. was 61s. 2d.

Messrs Bosomworth, of Cupar, Fife, Edinburgh, and Glasgow, sold a lot much of a like order in general character. Their top price was 35 pounds.

MRS. MARIE VARNEY
London, England, is still the financial centre of the world, and from that centre came Mrs. Varney, with a wealth of knowledge for the people of Western Canada. She has travelled extensively throughout Europe and has lived for some time in Paris. Mrs. Varney has won great distinction in England as a lecturer—or rather, as a woman with a definite message for mankind. In her lecture for Canadian audiences—"The Great World Heart"—she will speak of conditions in Europe and how they effect us on this continent. The British Council writes concerning her: "Besides being a speaker of great ability and distinction, the charm of Mrs. Varney's personality is most contagious, and very heartily the British Council commend her to the British public, feeling that she has a mission for the people of the British Empire."

15s. Their average for 41 head was 31 pounds 1s. 9d., and their average price per cwt. was 61s. 10d.

On the farming side the largest buyer by far was Mr. Guthrie Batchelor, of Messrs. F. M. and G. Batchelor, Craigie, Dundee. Other prominent buyers of "short keep" animals were Mr. Wedderspoon, of Castleton, and Mr. W. Henderson of Lawton. A fairly large number of keeping animals went otherwise to the counties of Kincardine, Fife, Roxburgh and North Lanark.

The above article is from the Irish Times of April 14, 1923. Coming from such a reliable source, stockmen of Canada have cause to be pleased with the immense possibilities obtained by them in the removal of the embargo on Canadian cattle entering Britain. Let it be understood that the removal of the embargo on Canadian cattle will be the means of providing strong competition to the Irish cattle raisers.

In comparing prices it must be remembered that the English cwt. is 112 lbs.

THEIR NEW POLICY

The C. P. R. Announce a New Land Colonizing Policy That Should Help Considerably

The Canadian Pacific Railway with its traditional shrewdness has announced a new colonizing policy which should be very helpful to farmers in the west who have bought land from them. The company has come to realize the importance of long term credits to the western farmer and thus a new land settlement policy has been framed. Speaking of the new policy the Lethbridge Herald has it about right when it says:

Just as it effected a national policy of much benefit to the Dominion in linking up East and West, the Canadian Pacific Railway in its new policy carries on to what no doubt will be a beneficial fruition the policy originally inaugurated in opening up the agricultural areas of the West. In this the Company, as the pioneer in making possible the movement to the West, has shown a fine sense of responsibility in the new measures for the accomplishment of what the opening of new country in the Dominion was anticipated to bring about.

As an asset to an immigration policy of real value the new policy of the Canadian Pacific Railway will prove a boon. The long term payments it proposes is bound to prove sufficiently attractive to bring settlers to the West. More than that, in the new policy are the fundamentals of a real immigration policy, in that it will not only attract settlers to the West, but will serve to ensure permanent settlers in the means it will allow them to pay their way before becoming fully possessed of the lands taken up. In its new policy the Canadian Pacific Railway has estimated the importance of agriculture as a basic industry not only to the Dominion as a whole, but the opportunities opened up in the West, but to the railway itself in what greater and permanent settlement provides, which stamps it as an essentially sound policy. Taking present conditions into consideration, the agricultural industry to succeed needs the means wherewith to succeed. Of material aid to this is the new colonizing policy. Just at this time the announcement is most opportune, and will be of great encouragement to the man on the land which it affects, giving at the same time an impetus to a successful immigration policy, thus making possible more than ever it was land settlement in the West.

THE SUMMER FALLOW

Superintendent of Experimental Farm, Brandon, Tells When to Plow The Summer Fallow

In an experiment conducted for ten years at Brandon Experimental Farm the average yield of wheat per acre from summer fallowed land ploughed May 15th, June 15th and July 15th of the previous year has been 37 bushels 41 lbs. for May 15th ploughing, 35 bushels 33 lbs. for June 15th ploughing, and 29 bushels 48 lbs. for July 15th ploughing.

May ploughing has therefore shown a slight advantage over June ploughing, while the latter has shown a very decided advantage over July ploughing. It is hardly practicable to recommend May ploughing for summer fallow, as that month is usually filled with seeding operations. However the advantage which May 15th has over June 15th would indicate that the sooner summer fallow ploughing can be started without interfering with spring work the better. This is particularly true where stinkweed is a factor, as it begins to ripen seed early in June.

Late ploughing of summer fallow is a mistake. The growth of the weeds wastes the moisture; the weeds ripen and shell seeds which are a cause of trouble in future; and the operation requires more power and is harder to do properly when done late. It should be the object of every farmer to get his summer fallow all ploughed early.

A brass band is being organized in the town of Macleod.

W. I. CONVENTION

Annual Gathering of Members of This Organization Will Meet at Edmonton, May 29

The eight annual convention of the Alberta Women's Institutes will open Tuesday morning, May 29th, in convocation hall of the University of Alberta, Edmonton. The morning of the first day will be taken up with the reports of the secretary, Mrs. A. H. Rogers, Fort Saskatchewan; the president, Mrs. J. N. Beaubier, Champion, the Immigration Committee, and Legislation Committee, while the session will conclude with an address by Hon. Irene Parby, M.L.A. The program of the afternoon will include reports of the two northern district directors, Mrs. W. Stewart of Peace River, and Mrs. C. A. Gates of Stony Plain, of the Child Welfare and Public Health Committee by Mrs. D. R. McIvor, Convener, Gibbons, and an address by Mr. Earle D. McPherson of the University of Alberta, on The Intelligence of School Children. There will also be an evening session Tuesday, this marking the formal opening of the convention. Welcome will be extended by His Worship Mayor Duggan of Edmonton. Two addresses will be given, these by Hon. George Hoadley, minister of Agriculture on The Future of Women's Extension Work in Alberta, and Mrs. J. N. Beaubier, the president's address. The program of Wednesday morning will include reports of Districts Nos. 3 and 4, of the Publicity Convener, the Director of Women's Extension Service, Miss Jessie MacMillan, Edmonton, and of the Convener of Agriculture, also an address by Mrs. Nellie McClung, M.L.A. In the afternoon there will be reports by the Convener on Canadianization and National Events and Education, while Mr. H. A. Craig, deputy minister of agriculture, will give an address on School Fairs.

There will be two addresses Thursday morning by Premier Greenfield and Dr. McEwen of the University of Alberta, and a report on Household Economics by Mrs. McGregor Smith of Edmonton. Time has been allowed at this session for a discussion of a Women's Institute constitution, that is not contrary to the W. I. Act. Thursday afternoon will be devoted mostly to business, the election of officers being the most important item. Two round table conferences are being arranged on household economics, conducted by Mrs. McGregor Smith, and Child Welfare, by Mrs. McIvor, while the convention will be concluded by an address by Mrs. Arthur Murphy of Edmonton, on Canadian Authors.

A number of social functions have been planned for the delegates. Musical numbers and assembly singing will be interspersed throughout all sessions of the convention, while resolutions will be discussed after reports or addresses to which they pertain.

There will be an innovation in the convention procedure this year, the various district directors taking their turn with the president in presiding at the sessions.

Correct this sentence: "The wife returned after a week at her mother's and found all the dishes washed and put away."

A rumor was current in Edmonton last week that Mrs. Picarillo and Charles Lassandro of Blairmore were married. It was only a rumor.

Foundation is given to the report that H. A. Driggs, warden of the Fort Saskatchewan jail, is to take charge of the Lethbridge jail by his arrival in Lethbridge this week. It is highly probable that no warden will be appointed to succeed Dr. Rivers but that Mr. Driggs will take dual charge of the Lethbridge and the Fort Saskatchewan institutions, with the deputy warden to act under him in Lethbridge.

A GOOD IMPRESSION

The citizens of Red Deer upon the arrival of Hebrideans at that point last week gave the new settlers a hearty reception and the general opinion is that they will make ideal citizens. In discussing them with us, a gentleman who had the pleasure of meeting and talking with them recently said he learned that one reason for their leaving their island home was the failure of the fisheries, which during the war had been practically ruined by mine explosions. As fishing was one of their main sources of livelihood, their small crafts yielding only scanty crops, they were only too glad to come to a land of promise like the Canadian northwest.

As these people spin their own yarn and weave their own cloth, their expenditure for clothes will be on a very moderate scale, and as they have been unused to luxuries at home and are accustomed to a climate much more severe than what they will encounter here, they should do well in their new home.

BINDERS AT A LOSS

That binders last year were sold at a net approximate loss of \$68, was stated by Thomas Bradshaw, general manager of the Massey-Harris company, giving evidence this afternoon before the special committee inquiring into agricultural conditions. Conditions during the previous year, he said, were hardly less satisfactory. The company's plant had only been operating at one-third of capacity, while expenses remained in many respects as high as when the full output was being produced. Mr. Bradshaw was given to understand by Chairman McMaster that detailed figures would not be published inasmuch as the witness claimed this would be unfair to his company. Evidencing the greatly advanced price of production, witness said that factory expenses had increased some 400 per cent. since 1913, while cost of administration also showed a very large increase. The rates of interest charged by his company on amounts owing, he said, was 8 per cent. in Alberta and Manitoba and 9 per cent. in Saskatchewan. After maturity the rate was 10 per cent. in the first two named provinces and 9 per cent. in Saskatchewan.

Here and There

Nova Scotia has adopted the "drive to the right" rule of the road, the bill providing the change having received the assent of the administrator of the province.

The year 1922 was a banner year for Montreal in the number and tonnage of ships which came to the port, a total of 6,983 ships of 13,039,899 tons arriving, as compared with 5,541 ships of 9,735,450 tons in 1921.

Canada led the world in 1922 in the export of raw furs to the United States. The total fur catch for that year was over 4,000,000 pelts, valued at \$16,000,000. While the general price of furs shows a downward trend, the total catch shows a remarkable increase.

Four of the Canadian Pacific "Empress" liners, the Britain, the France, the Scotland and the India, are to load grain at Quebec during the 1923 season, and new berths have been provided for these vessels near the grain conveyors, at a cost of \$300,000.

When she was alighting from a street car in Vancouver, Mrs. Rose McLaren received injuries which prevented her from concentrating and temporarily did away with her earning power as a spiritualist or psychic reader. She was awarded \$1,250 against the railway company.

The addition of the 37,000-ton "Montaurier" to the Canadian Pacific "Mono Class" fleet marks an important development. Not only is she the largest one-class cabin ship sailing to and from Canadian ports, but she is the largest in her class on the Atlantic. Her length is 613 feet and breadth 68 feet. Because of her size she will sail to and from Quebec.

Approximately 8,000 tons of silver ore are waiting shipment from the Keno Hill, Yukon, mines. This quantity represents the winter haul. Another 2,000 tons may be moved this summer, making the total silver shipments ten thousand tons for 1923. Such an output is worth about \$2,000,000, high grade ore running from \$200 to \$300 per ton.

"The greatest feat of steam transportation to my knowledge," said C. E. Stockhill, of the Canadian Pacific Railway, recently, "was the movement of the grain crop of 1922."

From Sept. 1 to Nov. 31, a period of 91 days, the Canadian Pacific Railway loaded and shipped an average of 1,265 cars per day. This requiring the dispatching of a train every 45 minutes during that entire period, carrying more than 1,000,000 bushels daily. This movement exceeded even that of the bumper crop year of 1915.

Why You Should Use a Mild Soap

Harsh soap dries the natural oils and is apt to irritate the skin and make it scaly.

In the mild, soothing, creamy lather of Palmolive you have an ideal cleanser. It is lotion-like in its action. It soothes while it cleanses.

Artful application of rouge and powder may lend your skin the appearance of smooth freshness, but when this is washed off, what a cruel revelation!

You can easily possess a fine complexion by giving your skin proper care. Instead of putting your skin to sleep with cold creams and cosmetics, wake it up with soap and water. Cleanse each tiny pore and skin cell, revive sluggish circulation. Get rid of the blackheads which are only accumulated dirt.

Use Palmolive Soap and apply it with your two hands. Massage it thoroughly into your skin and remove with many warm rinsings. This treatment makes your skin fresh as a rose.

You can buy Palmolive Soap at all first-class dealers.

Palm and olive oils—nothing else—give nature's green color to Palmolive Soap

REID HILL NEWS

Mrs. F. Davis is now well on the road to recovery after her recent attack of the "flu."

We learn that Mrs. Exley is not making so rapid recovery to health as was expected. She still being detained in the Vulcan hospital.

Despite the threatened rain a large attendance on Sunday last proved the popularity of Mothers Day, both at Reid Hill and Prospect Slope. At the latter place a record in attendance was achieved.

The church was a busy place on Thursday last, a number of ladies with mops and buckets, etc. cleaned and scrubbed and polished the building, as far as windows, floor and furniture was concerned, and over the tea cups afterwards the work was pronounced "well done."

A number of friends camped for the week-end at Mr. Glenn's, when we say camped, that's what we mean for they had covered wagons and had started on a track from Lomond to B.C. where they hope to locate in a more moist spot than they have been in lately. The party consisted of some four families with their household goods.

A painful accident was experienced by Mr. W. Glenn on Monday last, while making some adjustment to a farming implement, a restless horse caused Mr. Glenn's right hand to be caught by two fingers, one being practically severed from the hand. However the unfortunate victim had presence of mind to place the severed member in place again and bind it up tightly. The doctor on being summoned to the place seemed to consider the job well done and was satisfied to leave nature take its course. We hope for a swift recovery to health for Mr. Glenn.

BERRYWATER NEWS

A meeting of the Berrywater U.F.W.A. was held on May 9th at the home of Mrs. J. Baden. Many of the members were present, and a hearty welcome was given to several lady visitors from the Reid Hill and Mayview districts. Several interesting business items were discussed, after which two very helpful papers were read, one on the Care of House Plants by Mrs. D. Burr, the other on Home Economics by Mrs. D. Mills, for which those ladies were accorded a hearty vote of thanks. Mrs. W. Oldfield, president, then announced a very pleasing part of the afternoon's programme, the presentation to Mrs. J. Stein, the Berrywater Union's late hon. secretary, of a cut glass fruit bowl and silver berry spoon. Mrs. N. Campbell then read the address which was as follows: Dear Mrs. Stein, we take this opportunity of expressing our appreciation of the very efficient services you rendered for two and a half years as secretary of this local. We realize that on the secretary comes a very heavy part of the work and responsibility of any organization, the correspondence being considerable, and the greater part of the money amassed being in the denominations popularly known as "Chicken Feed," which is less labour to spend than to count. Not only do we appreciate your labour and the efficient way in which it was done, but also the effort made to be present at all the meetings, and the hearty co-operation in all the work and undertakings of the local. Though that enthusiasm is transferred to a new local, and though we feel this vacancy and others, we appreciate the fact that every new local enlarges and adds strength to the "Farmers Movement" which we have at heart. We ask you to accept as a slight token of our appreciation this berry spoon and fruit bowl and hope the memories they recall may be the brightest spots in the years when you were a member of the Berrywater U.F.W.A. Signed on behalf of the local, Mrs. W. Oldfield, president; Mrs. D. Mills, secretary. Mrs. H. Amey then handed Mrs. Stein the surprise packets, who thanked the members, and said, she had only tried to do her duty and although she had now joined a new local she would always be interested in and ready to help the Berrywater Union in any way possible.

It having become known that it was the birthday of one of the Reid Hill visitors (a late member) a cake made by Mrs. Baden was presented to the lady with candles alight etc., to the great surprise of the recipient, who thanked the hostess, president and members for their kind thought, each lady present had a generous helping of that most delicious cake. The meeting then adjourned and a dainty lunch was served by Mrs. J. Baden.

We heard some queries addressed to the Berrywater school teacher concerning a wonderful bug, all red and yellow which is being added to that already famous collection. No information was given.

The next U. F. W. A. meeting will be on June 13th at the home of Mrs. L. Douglass, when it is hoped to have papers on Home Nursing by two professional ladies.

A joint meeting will be held in Berrywater school on May 26th, all are welcome.

Fifty-three notices of assignment under the Bankruptcy Act are gazetted this week.

A company for the development of products of potatoes, has been incorporated in Edmonton at \$50,000. The purpose is to manufacture by-products.

BRANT NEWS

Nothing looks so foolish as a bad habit you are tired of.

Mr. J. S. Hunt of High River was motoring through the Brant district Friday.

A rain which commenced Sunday evening was welcomed by the farmers of the Brant district.

Mrs. Don MacLaren was a Thursday evening caller at the home of Mr. and Mrs. Frank Leach.

Miles Platt, who has been assisting George Green during seeding, left Monday last for Calgary.

Misses Mable and Louise St. Clair were Thursday evening callers at the home of the Misses Holthems.

In Fiji and Samoa it is common practice to tattoo on the hands of the mother the dates of her children's birth.

Messrs. L. J. St. Clair and T. J. Parker left for the foothills Saturday with about three hundred head of cattle.

Miss Pauline Mills who is attending high school in Blackie spent the week-end with her parents, Mr. and Mrs. R. B. Mills.

Mrs. Thomas Platt and children, who have spent the past winter in Calgary, are out on the farm north of Brant, while seeding is being done.

Miss Bowman who has been assisting Mrs. Harry Christiansen with her housework for the past month, returned to her home in High River Friday night.

The Women's Institute held their monthly meeting at the home of Mrs. H. A. MacNeil on Thursday, May 10. A large number of ladies were present and a delightful time was reported by those present.

Mr. W. B. Young who is teaching in the high school at Barons came on Friday night to spend the week-end with his wife and small daughter who reside north east of Brant.

Miss Velma McColman who has been cooking for her father during spring work, north of Vulcan, accidentally cut her foot while chopping wood. She was taken to Vulcan where her foot was dressed. She returned to Brant Saturday night.

A clearing-out sale was held at the Tarry-a-While ranch Wednesday, May 9, under the direction of the Messrs. MacDonald Bros., who found it necessary with successive crop failures to sell their stock of machinery and harness and move with their stock to a more favorable district. It is understood Mr. Dewayne Phillips, of Carstairs, has rented the ranch.

Arbor Day was observed Friday by the teachers and pupils of the Brant school. They worked diligently all Friday afternoon, the girls cleaning the house under the direction of Mrs. MacLaren, while Mr. MacLaren directed the boys in cleaning the yard. Compliments are certainly due to the school for the splendid way in which they cleaned the school and yards.

MAYVIEW NEWS

Glad to report Mrs. La Chapelle improving after her recent illness.

Sorry to report Mr. and Mrs. Millar White and little Arthur quite ill. The Hearnleigh Beef Ring has been in operation for some weeks and is proving quite a success.

Mr. R. E. Burr and his sister Mrs. J. McCann were Sunday callers in our district from Buffalo Hills.

Mr. and Mrs. D. L. Doane and children visited with Mrs. Doane's parents Mr. and Mrs. Hearn on Sunday.

Mr. and Mrs. N. S. Campbell and Miss Ethel, also Miss Watt spent Sunday with Mr. and Mrs. D. Burr.

Those who attended the Berrywater U.F.W.A. meeting at Mrs. J. Baden's report a pleasant and profitable afternoon. Berrywater knows how to entertain.

The Mayview U.F.A. met on Friday, May 11th with a good attendance of members, and several visitors. It was decided to hold the meetings once a month during the summer. Mr. Donald Sinclair gave a talk, also Mr. O. McPherson. Both gentlemen were listened to with great interest. There was also a song by Miss Watt which was very much enjoyed, also a recitation by Reggie Stein. The ladies of the local served a dainty lunch, after which everyone went home feeling they had had a pleasant and profitable evening. Next meeting June 8th. Everybody welcome.

LOVE SECTION

On May 15th the Red Cross Ball team journeyed to Brant for a game of ball which they found and returned home the same night. It was a great game for both teams as it was their first game this season. Brant put up a big struggle to win, but were unsuccessful, the boys from Red Cross were too much for them as they were playing ball from the start to the finish. Willard, our famous pitcher, was going strong, even better than he was last year, the infield were a little off balance at times, but what they lacked the outfield made up for, so the game was won by Red Cross, the score being 15 to 3. There was a fair crowd of people to see the game as well as several from Red Cross. There is a possible chance of a league being started between Red Cross, Brant and Blackie. If this should be possible it will make a fine summer sports and I believe it will. Red Cross have not received their ball suits yet, but will in the near future. We kindly ask the people to come to ball games, and cheer for our team as that is all they lack.

HON. CHARLES STEWART
Minister of the Interior who spoke in the House on the Budget

GOLF TOURNAMENT

Arrangements Being Made to Hold Tournament Here July 1st and 2nd With Eight Clubs Participating

At a meeting lately held in Nanton by representatives from Blackie, Champion, Claresholm, High River, Nanton, Okotoks, Staveland and Vulcan it was decided to hold a tournament in High River on the dates of the 1st and 2nd of July next, and the list of events then to be participated in was decided to be as follows:

- 1.—18 holes medal play, handicap.
- 2.—18 holes men's forenoon, scratch two balls.
- 3.—18 holes match play against par, handicap.
- 4.—18 holes scratch medal play.
- 5.—18 holes, club team match, 6 on 2 side.
- 6.—9 holes medal play for ladies, scratch.
- 7.—Long distance driving. Approaching, putting.

An admission of 50 cents for each event as numbered.

The scores for the team event will be taken from event No. 4 and no special round will be played. As there will be six men participating in the first prize in this event and consequently the individual prizes would necessarily have to be of small value, it has been suggested that each club be approached to donate the sum of \$5.00 towards the purchase of a cup to be played for annually in a team competition, open only to those clubs making the original donations and any others which they may decide to include in later years. In reference to event No. 7, this is one competition only but there will be a first and second prize for the driving and a first and second prize for the approaching and putting. There will be a special prize awarded for the best gross score for the 54 holes comprised in competitions 1, 3 and 4. Play will commence on July 1st at 10 o'clock sharp and players are requested to be in attendance promptly at that time. No entries will be received except through the secretaries of the respective clubs and these must be in the hands of the secretary of the Highwood Golf Club, High River, Mr. Colin Heseltine, not later than June 15th, 1923, and each entry must be accompanied by the handicap of the player limited to a maximum of 27, based on par. A limit of 16 entries has been set as the maximum which anyone club may send, with the right reserved to the Highwood Golf Club to fill in up to a maximum of 80 players. This is, of course, exclusive of ladies. In order that the prizes may be purchased before the tournament all fees must accompany the entries.

BLACKIE NEWS

Messrs. C. E. Frank, C. B. Larson and Bishop E. W. Bushman attended quarterly conference which convened at Taber May 5 and 6th. Apostle G. F. Richards of Salt Lake City was the visiting member of the quorum of twelve.

Miss MacKay of Calgary arrived here Monday morning, resuming the position as primary teacher in the Frankburg school.

Scarlet fever patients are all well and all will be out and free next week. Principal J. W. Payne has resumed his labors at school after a week's holiday.

Mrs. Sara Payne resigned her position as teacher in the public school here.

Mr. and Mrs. C. B. Larson, Mr. and Mrs. L. N. Ockander were visitors at Wilkin's home in Blackie recently.

L. D. S. Church was closed for two Sundays on account of sickness.

Correct this sentence: "The wife returned after a week at her mother's and found all the dishes washed and put away."

Two hundred settlers from the Hebride Islands arrived the past week at Red Deer, in which district they will take up farming.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 1st June, 1923, for the conveyance of His Majesty's Mails, on a proposed contract for four years, six times per week on the route Ensign and Railway Station (Can. Pac.) from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of Tender may be obtained at the Post Office at Ensign and at the office of the Post Office Inspector.

Post Office Inspector's Office, Calgary, 20th April, 1923.

D. A. BRUCE,
Post Office Inspector.

The annual convention of the Canadian Public Health association, of which Dr. W. C. Laidlaw, Deputy Minister of Health for Alberta is president, will be held at the University, Edmonton, on June 12, 13 and 14 next. Delegates from various parts of the province and of Canada will be in attendance. The association includes also the Canadian Tuberculosis association, the Canadian association for combating venereal diseases, the association of mental hygienists, and child welfare. The meetings of the convention will be open to the general public.

Here and There

Seeding in Alberta was two weeks later this year than last.

A recent party of Swiss immigrants recently arrived at St. John aboard the Melita and are en route for the West, where they will engage in agriculture.

Twenty-two thousand immigrants to Canada from the United States were inspected on trains and highway crossings at the 33 points from Port Arthur to Kingsgate, B.C., during March of this year.

To date the port of Vancouver has shipped or booked 17,600,000 bushels of wheat to the Orient and South America. The railroads expect at least 2,500,000 additional bushels to be shipped this way in the near future.

The memory of the early missionaries of the Oblate Order will be perpetuated by the Canadian Pacific Railway, and several stations on the extensions of their lines between Kipawa and Quinze will bear names of early members of that organization which did so much for the colonization of the country.

There are thirteen new paper making machines being installed in Canadian paper mills this year. When erected and running full these machines will consume more than 350,000 additional cords of wood a year. Canada is already annually exporting more than 5,000,000 cords of pulpwood, representing the growth of a century or more on 1,250,000 acres of land.

A new service for motor tourists desiring to pass between the mainland and Vancouver Island has been inaugurated between Bellingham and Victoria. The Motor Princess, with a capacity for fifty automobiles and 250 passengers, plies twice daily between the ports. This boat is motor driven and the first of its kind to be operated on the Pacific side of the continent.

In 1922 Canada produced 2,418 tons of salt cake, valued at \$54,804, and 1,329 tons of Glauber salts valued at \$42,719, according to government figures. There are a number of immense deposits of Glauber salts in the province of Saskatchewan, which are at the present time only in the initial stages of development, but it is anticipated that the next few years will see a considerable increase in production.

The Canadian exhibit at the British Empire Exhibition, to be held in London from April 20th to October 31st, 1924, is to be financed, controlled and directed by the Federal Government. The estimated cost is \$1,000,000. The two Canadian railroads are planning exhibits on adjoining sites, each with a floor space of 10,000 feet. The cost of the Canadian Pacific exhibit is estimated at \$300,000.

The Canadian Pacific steamship "Empress of Russia," upon her last sailing, carried a shipment of Canadian frogs for Japan. Cool space was reserved in the hold of the liner and the travellers were well packed in ice. On being taken ashore at Yokohama these frogs will be gradually warmed until they are ready to be let loose, when they will be liberated on the swamps of Japanese farmers, with the idea of giving the Japanese a new industry in the production of frogs legs.

The Canadian Pacific Telegraphs have announced the following reduced rates per word for cable messages to the following countries effective to-day:—Austria, 30 cents, Belgium 23 cents, France 22 cents, Germany 25 cents, Great Britain and Ireland 20 cents, Greece 35 cents, Hungary 33 cents, Italy 26 cents, Spain 33 cents, Switzerland 27 cents. The 25 cent per word rate to Great Britain and Ireland is still in effect for special rush cables. Corresponding reductions have been made in the rates to other countries in Europe and beyond via Atlantic cables, and the new deferred rates will be one-half of the full rates quoted above except to Great Britain and Ireland, where the existing deferred rate of 9 cents per word is unaltered.
